LOCAL P. T. A. MEET HELD TUESDAY

Discussed "Safety Legislation in Mississippi"—To Save Auto Driver.

At the regular monthly meeting of the Parent-Teachers' Association of Bay St. Louis, held Tuesday afternoon at Bay High School, an interesting and unusual program was presented. Mr. Roland Weston, Mrs. Nelson, Mrs. Robin, Mrs. Olson and Mrs. Roland Weston gave an instructive and unique discussion of "Safety Legislation in Mississippi."

The group discussed the driver license law and urged everyone to be more careful as to the age and physical condition of himself before driving his car on highways.

It was plain to see from the discussion that it is important and necessary for safety's sake that there should be a minimum age limit and that a person must be possessed of some standard requirements before being allowed to participate in the privilege of driving a car on streets and highways. That this was essential was especially brought out.

The speakers urged all members and others to join in a state-wide movement and to call the attention of their representatives to this need at the forthcoming session of the legislature.

A vote of thanks was tendered Mrs. Spence, serving on the program committee and to members who made it possible by their active participation, resulting in an constructive and interesting afternoon.

Mrs. Terry, the president, gave a brief resume of the state convention P. T. A. which she recently attended. She read the word of appreciation by Mrs. I. A. Rosenbaum, the outgoing state president, and words of greeting from Mrs. T. L. Lowery, new state president.

The regular business session proved to the members the splendid things the P. T. A. was doing for the school children of Bay High and Central Schools.

At the conclusion of the evening's assembly Mrs. Terry invited the group to the social hour with the Second school grade mothers as hostesses in the home economics room. Mrs. Walter J. Gex, Mrs. H. H. Kirkpatrick, Mrs. A. P. Ramsey, Mrs. Albert Biehl and Miss Louvenia Saucier, teacher, serving.

A Plea For Catholic Orphans of Mississippi During Thanksgiving

Thanksgiving Week has been set aside by the Diocese of Natchez in which to collect funds to help the Catholic orphanages of Mississippi. The orphans are in want and no time seems more fitting in which to contribute than during the weeks in which we return formal thanks for the good we abundantly receive.

There are 154 children in the orphanages of Mississippi. Cost of child is \$10 per month.

Cash contributions will be collected by the solicitor in Bay St. Louis. Offerings may also be sent to the local pastor, the Rev. A. J. Gmelch, at the rectory or mail check. There is no greater charity than help feed and clothe the orphaned children. In thanksgiving that your children have the blessings of home and parental solicitation give generously in return.

'LITTLE MOSES' SWAMP BABY WAS YEAR-OLD MONDAY.

Mother Says She Refused Movie Offer—Strange Story of Baby Recalled.

Pearl River, La.—Little Moses, the baby Mrs. Effie Crawford first said a big dog had brought to her but later admitted was her own, was one year old Monday.

A year ago, the world was startled to hear Mrs. Crawford's story that a big dog brought the infant to the yard of her backwoods home.

It was more startled when she retracted her story and told officers she was its mother. She said she slipped out of the house at night and gave birth to the baby behind a woodshed by the light of burning straw, hid it for two days, and then told the "dog" story.

Her first explanation of the baby's strange appearance caused it to be named Moses, after the Biblical Moses who was found in the bullrushes.

The woman's husband, Louis Crawford, complained this week that the baby's birth was news "all around the world," but he "didn't make a cent out of it."

"Nobody," he said, "will take my baby's picture again unless they pay me \$1,000."

Mrs. Crawford said she had turned down an offer to get into the movies because of a throat trouble which interfered with her voice.

Senator Harrison Spends Evening in Bay St. Louis.

Senator Pat Harrison was informally entertained in Bay St. Louis Wednesday evening by a group of friends which included Leo W. Seal, A. G. Favre, Walter J. Gex, Charles Murphy, J. C. Rich, O. J. Dedaux, Lucien M. Gex, Emile J. Gex and Chas. G. Moreau.

The event was the occasion of departure this week of the Senator for Washington to be present at the special session of Congress which the President has called.

During the early part of the evening the group repaired to the home of Mr. and Mrs. Walter J. Gex, on South Beach boulevard, for an hour or more, prior to assembling later at the home of Mr. and Mrs. A. G. Favre, in Main street for dinner.

The party, seated at the table for nearly two hours, enjoyed the conversation and reminiscences of the Senator's earlier years in which Bay St. Louis and Hancock county played so important a part contributing to his success which in turn has turned to abundant benefits for the people he capably represents.

YOUTH SPEAKS TO CLUB

Members—J. R. Wolf, Jr., Of Kiln, Reviews Formation of Constitution

The Rotary Club presented a very interesting program Wednesday at Hotel Reed commemorating the 150th anniversary of the formation of the National Constitution. The program consisted of patriotic singing under the direction of Song Leader Rotarian Gordon, with a review of the formation of the Constitution by J. R. Wolf, Jr., member of the Senior Class of Kiln High School. The youthful orator was introduced by the Superintendent of his school, Prof. McCormack.

The speaker outlined the conditions that existed in the colonies prior to the Constitutional Convention, showing the great necessity for some agreement among them in order to protect the future of America. He told about the different issue that caused prolonged discussion during the convention. Two important issues he said, were the tariff question and slavery. These issues caused much argument among the delegates from sections of the country affected directly by these questions. The constitution was finally agreed upon and immediately ratified by the people of the country.

He then mentioned some of the outstanding amendments to the Constitution up to the present day—generally known as the "Lame Duck" Amendment. In conclusion he recited The Preamble to the Constitution which explained in a very forceful way the purpose of the Constitution. The speaker is a star member of the Kiln High School debating team. He handled the subject well, and proved to be a very capable and interesting speaker.

Shrimp Supper. The winners of a recent inter-club attendance contest were treated to a "shrimp supper" Wednesday night. Rotarian Alden Mauffray was captain of the losing team, with Rotarian Gordon heading the winners. According to reports the occasion was enjoyed by all present. C. C. and John McDonald past presidents of the local club were guests.

In legally dry Mississippi this year the department has issued 1163 retail liquor licenses.

Revenue department records show that for beer legal in 40 counties, there are 1863 retail dealers and 98 licensed wholesalers.

GOVERNOR'S MESSAGE TO LEGISLATURE IN JANUARY TO BE BRIEF

Will Recommend Free Text Books for Elementary Classes—To Extend Good Road Program

Intelligence from Jackson is to the effect Governor White's forthcoming message to the Mississippi Legislature, to convene in January will be of necessity brief. He will not have much to recommend. Much of his campaign platform has been carried out and that he has accomplished much goes without saying. His administration has been noted for its business-like way. Progressive and expansive and yet one of the most economical in the history of the State. Free text books is the only plank in his platform which, so far, has not been carried out. And that, it is said was due to the fact that the time for so doing was not opportune.

Governor White has indicated that his principal recommendations to the Legislature will include:

Free textbooks for elementary school children.

Completion and extension of the state's road-building program.

Continuation of the advertising and industrial programs.

Increasing appropriations for eleemosynary institutions, schools and other departments.

Gov. White delivered the address of the day at Laurel on the occasion of Armistice at Laurel. This, it was said is his last current speaking date until he will have completed his message.

HUNDREDS ATTEND HOMECOMING

Day Was Filled With Many Things to Interest and To Always Remember.

Ideal weather prevailing on the most favorable auspices homecoming day at St. Stanislaus College last Sunday was easily an unqualified success. Many visitors from all sections of two States came for the day, visiting their alma mater and returning to the haunts of the dear old college and Bay St. Louis.

Barbecued meats was the high spot of the plate dinner served at the college at noon.

Three hundred and fifty meals were served, ladies of the community assisting, headed by Mrs. Edouard C. Carrere, president S. S. C. Mothers' Club.

Bro. William, president, Brother Alexis, vice president and associate members of the faculty, expressed themselves as feeling highly gratified at the success of the event.

In addition the affair proved of great value to Bay St. Louis, attracting as it did many people who visited and in addition to the exercises of the day, enjoyed the trip to this section of the Gulf Coast.

Following the dinner the afternoon hours' fifteen hundred people witnessed the football game, College vs. Commy High School of New Orleans, Stanislaus collegians winning a score of 14 to 0.

For the occasion the college publication, "The Rockchaw," issued a double number, profusely illustrated with half tone cuts and printed on book paper. As usual, the paper represented a splendid get-up and proved an interesting souvenir of the day. "The Rockchaw" is a decided credit to those responsible for its get-up.

In all Homecoming Day was a memorable event. A red letter day.

HANCOCK COUNTY BUILDING VALUES.

A DECIDED impetus in values of land in Hancock county should follow the wake of the number of activities noted. Property values should take an upward turn and much of the looked-for and talked-about prosperity should be forthcoming.

Building of roadways, opening new (short-cut) highways, hardsurfacing for better and quicker travel, building of rural electric lines over a wide area, redeeming cutover land with tung tree orchards, county-wide forest protection under official and organized supervision, are major factors that count for enhancement of values.

Drastic cut in ad valorem tax levy, along with that of the State, and a promise for further reduction next year, with the fact 1937 increase in assessments were cancelled, there is much hope for the immediate future of the county and its people.

Improvements will continue and subsequent development and prosperity is well high inevitable.

The people of Hancock county are to be congratulated.

NOVEMBER CELESTRIAL EVENTS.

TWO interesting celestial events are scheduled for November and sky-gazers will not miss them.

On the fifteenth, just a few days before the full moon, the earth passes through a swarm of tiny fragments, moving around the sun. They appear as meteors, or "falling stars," always seen in greater numbers after mid-night.

On the night of the seventeenth the earth passes between the sun and the moon, and the shadow of the earth, sweeping through space, will cause an eclipse of the moon, visible over the entire United States and Canada. It will not be a total eclipse, but around one o'clock, on the morning of the eighteenth, the moon will enter this phase, gradually assuming a darker color, until at 3:19 a. m. it will be about fifteen per cent covered by the arc-of-a-circle shadow of the earth.

DRAW YOUR OWN MORAL.

FROM Iowa comes the story of a mother who killed five of her seven children and herself, leaving a note reading, "I have stood all I can take, and best to take the kids along."

To two boys, 15 and 11, she wrote, "all that saves you boys is no more shells!"

Her husband was in jail at the time of the shooting. Two girls, 13 and 10, and three boys, 6, 4 and 2, "went along" with the despondent mother.

It is hard to imagine the desperation that would lead a woman into such a cold-blooded slaying of her own children. Whether her mental power snapped under some real or fancied wrong is a matter of conjecture but that life, as she faced it, was impossible is plain from her act.

The moral to be drawn from the story will vary with different individuals. For ourselves, we hazard no guess.

NOT 212 TO 4!

NEWS from a high school in a comparative large city is that 216 high school girls recently voted a choice between marriage and careers, with the result being only four votes for marriage.

So what? So, nothing! In a few years at most, a majority of the girls will be married and, even then, some of them will be taken up with their careers.

Life may be so topsy-turvy that some women are willing to eliminate marriage in favor of a freedom to work for themselves but the ratio is nothing like 212 to 4.

IT'S NO PLEASURE.

IT is no pleasure to read that 28,140 persons died in traffic accidents during the first nine months of 1937, according to the report of the National Safety Council.

Neither is it comforting to realize that the list of the dead grows by an additional one hundred victims a day or one every fifteen minutes.

What's to be done about this toll? We don't know the answer but maybe continual presentation of the casualty list will help some of us to drive more carefully and save human life.

TWO R. R. TERMINAL DEPOTS FOR NEW ORLEANS.

NEW ORLEANS announces the building of two terminal railroad depots, one in the downtown section and the other in the upper portion known as Carrollton. It is well the city is to have two such union depots, if we may call them such since there are to be two. New Orleans is too large for one alone and two will prove of convenience and relieve a congestion that naturally would follow from the building of one. Mayor Maestri is backing the projects and deserves more than ordinary credit in the premises.

WAVELAND'S ADMINISTRATION.

OUR sister city of Waveland has a most progressive and successful administration coupled with economy in the true sense of the word.

Economy practiced, by hoarding income and spending nothing is no economy. That method might accumulate funds, but unless such monies are judiciously spent they are of no value and do no good.

The best measurement of a city's administration is by the yardstick of progress. In Waveland for the past two years there has been a steady boom in building. Dwellings on every side over a wide-spread area are noted. Not only to one section or neighborhood is this activity of building noted but on every side.

At one time it was said, and accepted, that no place on the Coast was there so much building in progress at one time as in Waveland.

Mayor Thomas J. Bourgeois is a progressive and experienced official and executive. Under his administration the town of Waveland has prospered. The tax rate is fair and many public improvements have followed one after the other. And, it might be a secret, but just now he is contemplating another particular improvement.

Waveland's splendid public school, hardsurfaced streets, electric street lighting, store buildings of the better kind, handsome new city theater are all signs that give unmistakable evidence of success and progress.

And the program of building, remodeling and rehabilitating continues. Mayor Bourgeois and his associates in the Town Hall are well worthy of the trust and position they hold.

If you want to realize how time flies recall that it was nineteen years ago this week, that the Armistice was signed.

A CALL AT THANKSGIVING.

ST. MARGARET'S DAUGHTERS of Bay St. St. Louis, serving all people regardless of creed, continues in the daily application of its vast charities.

A band of women have conducted this generous charity of aiding the poor, afflicted and sick for now quite a number of years. With meagre assistance and a small membership the wonder is how so much is accomplished over a wide area and serving many.

St. Margaret's Daughters supplies medicines to many patients at the local hospital from time to time, people totally unable to pay for prescriptions and other medicines.

St. Margaret's Daughters supplies food to families, clothing and aids children in more ways than one.

In addition to these charities, we find the Daughters just now interested in assisting the daily school lunch distribution—supplementing the government's limited supply and contributing through the beneficence of friends, a larger amount of food in order children may be abundantly fed and sufficiently nourished.

We make an urgent plea for assistance to St. Margaret's Daughters in order they may succor the poor, supply the sick with medicines, cloth the destitute and provide food for the undernourished children. This appeal particularly at Thanksgiving time should not go unheeded. Contact with Mrs. G. Y. Blaize, Bay St. Louis.

MISSISSIPPI'S MAIN ROADWAY ARTERY.

REPORTS from travelers over the highway connecting Jackson with Gulfport are to the effect hardsurfacing has reached to an extent of completion save for a short piece now in the building.

This is gratifying. Travelers from the Capital to the Mississippi Coast will cover the distance in a comparative short while over the old route of uncertain lines and surface it was different.

This will facilitate for business as well as for pleasure. To go to Jackson on business at the State house and back will hereafter mean for a day's time.

To tourists and others on pleasure bent it will continue to further satisfaction.

In time Governor White and the Highway Commission will have given the State not only the best roadways in the country—since they are of modern and approved construction but will connect the Coast with Northern and Eastern routes thru Memphis.

We may well expect an influx of visitors from other climes and the winters in future should see thousands of tourists and others who otherwise would give Mississippi the grand go-by.

The government says the country is still in need of several million new dwellings. Bay St. Louis needs a few hundred of brand new, up-to-date houses of medium size and moderate rent.

MUCH TO BE GRATEFUL FOR.

WITH Thanksgiving fast approaching one's thoughts naturally go out to the day the nation has set aside in order that we as individuals and as united country might assemble in places of worship and send up our prayers of thanks to the Giver of all things.

Every year there are lots to be thankful for. If one will only seek; take an inventory of self and immediate surroundings and conditions such survey will reveal we have much in common to be thankful for.

It is hardly necessary to enumerate, but if we did the list would be topped with the blessing of good health.

The community has prospered well because of the effort of the individual. Co-operation, cordial relations and a general willingness to do and to give are elements responsible for the things that have contributed to the happiness of the year.

The spirit of the fraternity of fellowship are contributing factors that go in the main measure to make for the things that we are most grateful for. And the hope is expressed that this state of being that goes to make for such happiness continue.

WHAT THE PRESS IS SAYING OF MEN AND MATTERS IN EDITORIAL EXPRESSION

A LEADER EMERGES.

(Jackson News)

GEO. ROTHWELL BROWN, editorial writer for the Washington Herald, recently wrote the following very revealing article entitled "A Leader Emerges":

The force of circumstances is steadily at work to bring Senator Pat Harrison, of Mississippi, into a new and commanding position of national leadership.

It will be a leadership which will extend beyond the mere bounds of party.

The next few years will find Harrison the most strategically placed chairman of finance we have known perhaps since the days when Nelson W. Aldrich, of Rhode Island, was backed in that post by the New England oligarchy which then "ran" the country. Aldrich was a real power, such as Boies Penrose, strong as he was, never became.

Now Senator Harrison is in the national fiscal spotlight. It often happens in public life that defeat means victory.

For four years Senator Harrison had gone along with the Roosevelt administration. He aspired to the leadership of the Senate when Joe Robinson died, and was entitled to it by every party and senatorial precedent.

The action which made Senator Barkley of Kentucky, Democratic leader, freed Harrison. There is little doubt in Washington that at the time he felt his defeat keenly. But time has softened that, as it does all wounds of the spirit, and doubtless Harrison now perceives in his greater opportunity for greater service and a new fame.

His present term will not expire until 1943, so that through this administration and well into the next, he will be in a position of commanding independence, similar to that which the Republican Aldrich, and the Democratic Arthur P. Gorman, of Maryland, enjoyed in their day.

There is no expectation here of any revolt by Harrison against the Administration, of which he is a loyal supporter. But there is expectation that he will make his advice and his influence in the Senate felt in matters touching the nation's financial structure. A man singularly free will stand at the head of finance while the Democratic party controls the Senate—as it will—in the years which must witness revision of the tax structure.

George Rothwell Brown, how well you have spoken. Truer words never before have been written. You are right when you state that Pat Harrison, our own Pat, will not revolt against his party. Pat will just give his advice, as only he knows how to give it. That is part of his job. That is what Pat is Chairman of the Finance Committee for. That is why the President can't get along without Pat.

The President needs Pat. Pat will be there when the President calls.

SALES TAX

(Clarksdale Register)

CONTINUE the sales tax, advises Mr. Ernest Smith, editor of the Greenville Democrat-Times, one of the state's best newspapers and leader in its field, commenting on Senator Ritchey's poll of opinion regarding repeal, which met with little response. "We have seen," observes Mr. Smith, "that it imposes no burden on anyone and at the same time forces those who would not otherwise pay anything toward the cost of government to make some contribution. . . . We have seen

BRUCE BARTON FOR PRESIDENT

(West Point Leader)

BRUCE BARTON, head of one of the nation's greatest advertising agencies, inspirational writer and philosopher, has been elected to Congress in New York State.

And press dispatches tell us that his friends are saying that he should be the Republican nominee for President.

The Republican party, you know, has been floundering around for some time without a leader, and its only hope for regaining its lost prestige has been in finding a Moses.

It is possible that Bruce Barton is, therefore, the man they have been looking for.

We like Bruce Barton, even if he is a Republican. There is a note of genuineness in his philosophy.

Speaking to a convention of newspaper men, Mr. Barton recently said:

"As one grows older in fishing, even as one grows older in living, there comes the same controlling truth—that one need not catch big fish in order to be happy; that the spirit of the fishing is more important than the size of the catch; that he who fishes well must fish with a calm and tranquil soul, drawing his reward from the joy of fishing rather than from the weight of his fish."

"What if he does not make a big catch of fish? He has still had the sunshine, the fresh air, the rippling water, the song of birds, the peace and quiet of the out-of-doors. And what if he doesn't become a millionaire? He still has most of the pleasures without the worries. Quite often he who catches the fewest fish—our dollars—has the best time."

"The average small town editor may not follow many set rules, as does the doctor, the minister, the engineer, the chemist, or others rated as professional men. But he does feel that he is rendering a service to the community. He feels that he is making it a better place to live, to raise families, to educate children and throw around the mite best environment. He feels that he is helping the churches, lodges and clubs to become more potent. He likes to feel that on his account there is less meanness and graft and slovenliness in government than there would be if he failed to stick his nose into things."

There is a sort of a Calvin Coolidge slant to Bruce Barton's writing. He is a simple sort of a chap, lives close to nature and believes sincerely that God made this beautiful world for the enjoyment of mankind.

Should the Republican party nominate Bruce Barton for President we would almost be tempted to vote the Republican ticket.

real estate taxes lowered because of the sales tax. As the business of the state grows we should see further reduction of this tax on homes and farms and business real estate."

And so declares this far-seeing editor: Keep the rate of two per cent as it is. Keep gasoline taxes as they are. When reductions are made in our taxes let it be the ad valorem."

Trade Board, in annual report, renews pleas for broadening of laws to prevent monopolies.

President delays tax revision until regular Congress session, pending study by committee.

THE DUKE OF WINDSOR.

The poor Duke of Windsor has no place to turn. He says now that he thinks he may visit Russia. He may or may not. Maybe the Russians will misconstrue his visit, as was done by some members of our own country. Silly statements and views. Why not let the Duke come regardless of his purpose. Certainly he can't do any harm. Not half the harm that has been done by CIO Lewis and his boys. Just a bride and groom looking for a little pleasure and places to go. They look for some excuse to make their trip seem logical. Then they are banned by a few who misconstrue. Come on over, Duke. No one will hurt you. Tell 'em you are just coming over for a visit. Cost any purpose other than a good time. The Americans have always liked you. They will continue to do so. That.—Fred Sullens in Jackson News.

"Double or Nothing" 'Sing Band' Debuts in New Crosby Film. A. & G.

Bing Crosby croons and people dance to the strains of the strangest orchestra ever assembled in "Double or Nothing," the brilliant comedy with music which opens at the A. & G. Sunday and Monday.

It's an orchestra of some seventy-five musicians—and none of them plays a musical instrument! It is composed entirely of human voices and has been named "The Sing Band." And yet the music supplied by this aggregation resembles the music of a full instrument dance band so closely that it is not only impossible to tell the difference with the human ear but engineers who have studied the "sound track" of its music have been unable to discern any difference.

The band is made up of talented boys and girls who are "good at" imitating musical instruments. The idea was conceived by Ted Reed, director of the film, which includes in its line-up of talent Martha Raye, Andy Devine, Mary Carlisle, William Frawley, the famed Calgary Brothers and many others, and placed in the hands of Max Terr, vocal coach, for execution. Terr held auditions and selected a number of boys and girls who could imitate various instruments ranging from a vibraphone to the clatter of wood blocks.

He then coached each individual to perfect the imitation. When he had completed the coaching, he made orchestration which provide parts for each voice in the same manner that a dance band leader has orchestration made which provide parts for each musical instrument in the band. In the "Sing Band" are individuals imitating violins, bass violins, cornets, violins, cellos and many other musical instruments. They are led in the picture by Harry Barris, who, with Bing Crosby, was one of the original members of the "Rhythm Boys" at one time featured by Paul Whiteman.

"Double or Nothing" is a fast moving story of a freak left by an eccentric millionaire which requires Crosby, Miss Raye, Frawley and Devine to invest \$5,000 each, given to them as a present, in such a way that they double that sum within a fixed time. The first to double the sum wins a million dollars.

84TH BIRTHDAY OF JOHN H. LANG, PASS CHRISTIAN OBSERVED

Beloved Coast Citizen and Harrison County Historian Recipient of Many Attentions.

Coast friends of Mr. John H. Lang, residing at Pass Christian, did not forget that Sunday, November 7, was his birthday. Born in the vicinity of DeLisle, Miss., November 7, 1853, he was 84 years old on that day. The hospitable home at Pass Christian, where the latch string for ever hangs on the outside, was like a mecca—the point of pilgrimage for many who called during the day, to congratulate him on his long and successful life and to voice their appreciation that so splendid and useful a citizen resided in their midst.

Ladies and gentlemen called throughout the day and when evening had arrived there had accumulated many presents that in a measure voiced in more material manner the good will of the callers. However, the thought and sincerity of the callers was prized by the honoree of the day and it can well be imagined how deeply he was touched by this manifestation of love and esteem.

Mr. Lang resides with his daughter, Miss Jane Lang. Others are Edward Buckner Lang, Pass Christian; Lieut. Col. John W. Lang, of Charleston, S. C.; Arthur Wallace Lang of Gulfport, and Easton Adlai Lang, Pass Christian.

Mr. Langs is well and popularly known for his long and active life and particularly for his activities along the Mississippi Gulf Coast. Recently he published a 300-page book, "History of Harrison County, Miss.," a volume of exceeding value inasmuch it preserves a wealth of data regarding the Harrison county coast section that otherwise would have perished from the memory of man. Sketches of people and events, Military records. Enrollment of soldiers from the civil war, Spanish-American war, World war veterans, members National Guard, etc. History of Cat Island, of the Louisville & Nashville R. R. and other subjects of general and particular interest.

Although his sight impaired, Mr. Lang, in the evening of his life, is physically and mentally alert, currently posted on all events. He's devoted daughter, Miss Jane, reads to him and the radio are factors that bring much light to his mind and satisfaction of being. The Echo joins in the general felicitations on so happy an event as a birthday that carries so many mile stones thru the path of long life.

BETTE DAVIS AND EDW. G. ROBINSON IN FILM AT THE GULF.

Two Stars to Show in Separate Features—Stories of Secret Service and Underworld.

Striking with the deadliness of a serpent, the "Special Agent" has again and again proved his ability as the most effective weapon in breaking rackets. Pitted against the deadliest of killers, they have come through with flying colors, and are the unsung heroes of our government. Facing death for their country in order to have a crime-free nation is only one of their numerous qualifications.

For the 14 and 15 of Nov., the Gulf Theater at Waveland announces "Special Agent," starring Bette Davis and George Brent, supported by Ricardo Cortez and Jack LaRue.

The team of Bette Davis and George Brent, helps to make the picture an outstanding one of the fight on crime. It is the greatest show since "G-Men."

"Little Caesar" Takes Over. Characterized by Edward G. Robinson, and produced by Warner Bros., "Bullets or Ballots," will be shown at the Gulf Theater on the 14 and 15, is destined to begin a new era in motion pictures.

Both pictures have won the blue ribbon award for the picture of the month, and with such characters in the leading roles it is with little wonder, Bette Davis will be shown on the 14 and 15 with Edward G. Robinson following on the 16 and 17.

Benefit at Pineville Public School Scores Unqualified Success.

Thursday of last week at Pineville Public School, over across Bay St. Louis, a successful play was presented. To Professor T. J. The affair was a benefit and scored in unqualified manner both the play and success resulting.

The Rev. R. J. Sorin, pastor of the church at DeLisle, thanked one and all, including the trustees of the school, in a few but well-hosen words that well manifested his earnestness and sincerity. He also thanked the Rev. Father Weber, S. V. D., and the Rev. Father Becker, S. V. D., of St. Augustine's Seminary, Bay St. Louis, who went over for the occasion Father Weber addressed the audience.

Special Announcement

TUESDAY'S BANK NITE WILL BE DISCONTINUED so as not to confuse the Big Regular Saturday Bank Nite. The money that has accumulated on the Tuesday Bank Nite will be divided among our regular patrons. It will be given in this manner.

All seats will be numbered. Numbers will be drawn on the stage and those sitting in seats whose number corresponds with those that are drawn will be awarded cash prizes of \$100 each. There will be five winners each Tuesday night until this \$450.00 has been properly distributed among the patrons. The first winner each week will receive a pass to the Gulf Theater for one entire week. Remember 5 winners every Tuesday night.

—Mr. George R. Rea, national treasurer Kappa Sigma fraternity, will leave on Tuesday next on extensive round of colleges of the New England States, that will take him far into Maine. He will spend, in among other cities, quite a time in Boston. His itinerary also includes western Pennsylvania. He plans to be gone about two weeks.

—The anniversary of the marriage of Mr. and Mrs. John Jenks and the birthday of their son, John Jenks, Jr., falling on the same date there was a dual celebration at the Jenks home in New Orleans. The happiness of the occasion was augmented by the presence of the beloved mother and grandmother, Mrs. Paula Jenks of Bay St. Louis. This good woman is more often found at the bed side of the sick and afflicted, than in scenes of gaiety. She ministers to material wants of the sufferers while she whispers words of hope and consolation.

—A visit to different merchants of the city reveals that considerable Christmas stock has already arrived and remains to be unpacked and displayed. Stores and shops will have more and varied stock this year to offer than formerly and are deserving of such encouragement than buying at home will give. For after all, it is the average merchant who makes for the better city, who carries the heavy burdens, pay the taxes, etc. Give the merchant a break, especially if he is enterprising to the extent to procure such stock and offers buyers such advantages.

—Mrs. D. M. McConnell, former Bay St. Louis resident of Santa Ana, California, but still retaining business and social interests here, contributes another of her interesting "Dots and Dashes From the Pacific Coast," published elsewhere in this issue of The Echo. Mrs. McConnell's contributions contain variety, spiced with interest, and written intimately and charmingly. She is the author of several works, stories and sketches for children and writes with facile pen. In conversation with Mrs. McConnell at Santa Ana this summer she said to the writer, "California is interesting and beautiful, but I am fond of the Mississippi Gulf Coast and like it best."

MANSFIELD
Tires!

TIRES FOR EVERY SERVICE

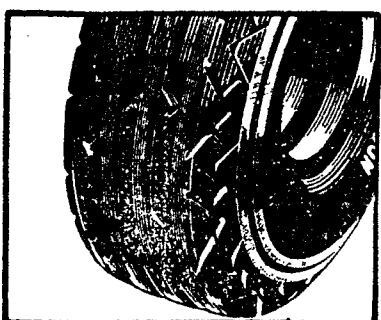

The extra mileage that Mansfield Tire users have received during the past twenty-five years has been responsible for the fact that the Company has grown steadily until it is now one of the six largest producers in the tire industry. Mansfield distributors dot the continent from coast to coast.

Mansfield Mudders

Designed and built to do just what their name implies—take you through the mud, slush, snow on any type of road, on their wide angled, heavy treaded treads.

Mansfield Cushion Balloons

Today's cars—built for small diameter wheels and low air-pressures—need special tires for high speed service. Mansfield Cushion Balloons bring out all the sparkling performance built into modern cars.

There's a Mansfield Tire built to give extra mileage and extra safety on any make car or truck you drive—on any kind of work, in any season of the year, over all kinds of roads. That's the reason we are stocking them, yes, and selling them to your friends and neighbors who already have had the opportunity to see the extra safety, economy and performance of Mansfield Tires.

THREE WAYS SAFER

Mansfield Tires are three ways safer because they are built three ways differently from other tires. For instance, Cord-Lock construction puts 31% more full weight cord fabric into the sidewalls, reinforcing the tire against flexing strains. The high tensile, steel piano wire beads are seven times as strong as actually needed. Mansfield treads are made of tougher Duro-mix rubber, today still more resistant to high speed wear and pavement "burn" from fast starts and quick stops. Every Mansfield Tire gives you more mileage than you pay for.

THE ECHO'S COOKING CLASS

AVOCADOS are available almost the year round, but their principal season is high in energy-producing and body building elements. They contain vitamins A, B, C, D, and E and F. Only the fully ripened fruit should be selected for immediate use. Avocados are ready for use when the flesh has softened so that the fruit yields to the gentle pressure of the full hand. Many unusual and delicious dishes may be created by the modern cook by using avocados.

Avocado Open Sandwich
Choose avocados that are well ripened and peel them thinly. Mash the meat thoroughly, removing all lumpiness. Then, to each avocado add ¼ teaspoon of salt and 1 teaspoon of lemon juice, spread the mixture on cheese crackers and sprinkle with paprika or dot over with a few small bits of pimento.

Stuffed Avocados
Cut avocados in halves and remove the meat from them, leaving the skins whole. Then cut the meat into balls or cubes of medium size. To 1 cup of avocado cubes add 1 cup of pineapple tidbits, 1 cup of orange sections and 1 cup of grapes from which the seeds have been removed. Marinate with a little French dressing made with lemon juice rather than vinegar. Fill the avocado shells with the fruit mixture. Garnish with fresh mint and serve on lettuce.

Avocado Cocktail
Pour 2½ cups tomato juice slowly into 3-4 cup chilled evaporated milk. Stir the mixture vigorously.

and add ½ teaspoon salt, 3-4 cup chopped ice and ½ of an avocado cut in bits. The cocktail is served in the refrigerator to ripen.

Avocado Salad

Chill avocados, cut in halves and remove seeds. Slice lengthwise and arrange on crisp lettuce with French dressing colored with paprika.

Another delicious use of the avocado is in a salad with sections of tangerines, and suspicion of curry powder added to the French dressing.

Avocado with Lime Ice

½ teaspoon gelatin
2 teaspoons cold water
1½ cups water
1½ cups sugar
½ cup lime juice
Few grains salt
1 egg white
Green coloring

Soak gelatin in cold water five minutes. Make a syrup by boiling the water and sugar together; add salt and gelatin and stir until gelatin is dissolved. Cool. Add lime juice and turn into refrigerator tray. When partly frozen turn out into a bowl, beat with an egg beater and return to refrigerator until it begins to freeze. Again turn into a bowl and beat in the stiffly beaten egg white. Add just enough coloring to give a delicate green. Return to tray and freeze. Chill avocados and cut in halves. Fill with the lime ice.

Slice avocados and spread between the slices finely cut celery moistened with Roquefort mayonnaise.

New Mexico Avocado Salad
1 cup mashed avocado
¼ cup canned tomato pulp free from juice
1 teaspoon onion juice
½ teaspoon chili powder
Salt

Mix these ingredients together. Chill. Serve on crisp cold leaves of romaine, garnished with a small dab of mayonnaise.

Avocado Sea Food Salad
Peel avocados thinly and cut them in six sections lengthwise. Place 2 sections on their side on each plate. Between the sections place shrimp, crab meat or lobster. Serve with hearts of lettuce and mayonnaise.
